A NOTE TO OUR RDC RESEARCHERS

Hello, researchers!

The RDC is in full swing this summer.

We have upgraded half of our workstations to significantly increase their processing speed - now you can double your research output! The upgraded workstations are Workstations 5 - 12.

We have reserved half of these workstations via the Booking System and the other half for walk-ins. As such, please continue to use the Booking System when possible to ensure the workstation of your choice!

Helpful TIPS

Remote Meetings in the RDC

Is one of the researchers on your project from out of town/unable to come in and look over your results before submitting?

No problem.

Ask one of the analysts if you can set up a **phone meeting** with other members of your team to virtually go over your findings together and skip additional output requests by signing an attestation.

See analysts for details.
